

GLIDEBOARD "SELFGlide"

Transfer of patient from bed into the wheelchair or WC, wheelchair into the motorcar etc.

**Product description:**

The **Selfglide-Glideboard** is primarily used by patients who can carry out the transfer themselves due to the strength in their arms.

This board simplifies the transfer of the patient from the centre of the bed into the wheel-chair or WC/chair (even motorcar). It is manufactured of absolutely unbreakable material (HDPE), is acid resistant, easy to clean and to disinfect. A specially developed anti-slide adhesive (blue) ensures the positioning on the bed, wheelchair, etc.

Size: 50 x 21 cm / 20 x 8 inch
