

SPRING-CUT® - NON-MAGNETIC BIOPSY NEEDLE
Semiautomatic Non-magnetic Soft Tissue Biopsy Needle, MRI Safe

Product description:

SPRING-CUT® represents the latest generation of semiautomatic guillotine-type biopsy needles.

Its exclusive features single it among all other biopsy devices in the same category.

Features include:

Stylet advance button remains locked during penetration: simpler manoeuvre, increased safety during the biopsy procedure, enhanced sensibility upon penetration.

Pre-determined bioptic throw (10-20 mm), adapting to the lesion size.

Stylet completely retractable from the cannula left in situ: control of the adequacy of the specimen, possibility of multiple biopsies (prostate mapping).

Stronger mechanism: reliable cutting of the most compact tissue.

MRI Safe

Gauge: 14 cm, 16 cm, 18 cm, 20 cm

AdB length: 11 cm, 15 cm, 20 cm
