

HAND METAL DETECTOR

Hand-held metal detector, high performance and precise detection

Product description:

Feature Highlights:

- Contact-free inspection
- Low-frequency device, no interference
- No readjusting during operation
- Extremely high detecting performance

Additional Highlights:

- Audible and vibrating alert
- Automatic zero compensation
- Robust structure
- Integrated battery-accumulator test

MH series metal detectors have been successfully used at police stations, criminal police offices, airports, and industrial facilities. Compact dimensions, high sensitivity, and reliability combined with practical, ergonomic design. For personal checks, the high (adjustable) sensitivity is advantageous; detection can be performed contact-free. Mail can be checked for metal objects, and nonferrous metals (copper, brass, gold, etc.) are also detected.

Specifications:

Transport case dimensions: 430 (L) x 310 (W) x 90 (H) [mm] / 16.9" (L) x 12.2" (W) x 3.5" (H)

Detecting Performance:

10 Euro Cent: 20 cm (7.9") detection distance in air

Aluminum disk 10 mm Ø: 11 cm (4.3") detection distance in air

Operating Panel MH 6:

On/Off switch

Sensitivity control

Loudspeaker

LED bar display

In combination with the sound output, the LED bar provides feedback about detected metal objects. Additionally, the bar displays the charging level of the built-in accumulator.
